

Title VII Grant

**American Indian
Tutoring Program**

Public Hearing regarding Title VII Funds

If you are a member of the Native American community, please attend this important meeting at Boulder Valley School District.

Tuesday, April 7th,

5:30-6:30 p.m.

BVSD Education Center Office for Institutional Equity

The purpose of this meeting is to review usage of the Title VII funds and determine how best to serve the Native American community while fulfilling the requirements of the grant.

The Title VII grant from the Federal Government is for use in improving the academic standing of the American Indians students. Funding is determined by the number of American Indians in the school district and funds may be used in any number of ways—but we must show results. For the past several years, BVSD's equity department has used the funds to coordinate a one-on-one tutoring program, which we currently run, but we wish to implement more cultural activities next year and need your input. We are very open to suggestions for the upcoming school year, and encourage anyone with ideas to come and voice them at this meeting.

For more information, please call the BVSD Equity office/American Indian Liaison at 303 447-5296 or 303 447-5145.

Mary Lettau

American Indian Community Liaison
