## **SUPERVISION OF CONSTRUCTION**

### **Building Construction Review**

The Board of Education shall require from personnel employed and directly responsible to the School District a review of the architect's activities in his supervision of building construction. This review shall include adequacy of field inspection of the contractor's operations, administrative activities of the architect relating to construction, and any other matters relating to the interest of the School District.

### **Reports**

The School District's representative shall make periodic reports certifying by his personal knowledge that the work of the construction contractor and the architect is being performed in accordance with plans, specifications, and their contracts with the School District.

### **Authorization of Change Orders**

A change order will first be approved by the Executive Director of Business and Support Services and the Superintendent of Schools, who will determine whether or not it is a matter for Board consideration. If they decide Board consideration is not necessary, then the signature of the Superintendent of Schools, with the recommendation of the Director of Planning and Engineering, shall be considered Board action.
