

ANGEVINE MIDDLE SCHOOL FACULTY

Katrina Carpenter

Education

Level of Education (if a teacher) and what you are highly qualified in:

MA from University of Colorado

Philosophical Statement

Highly Qualified in Science and Social Studies
My goal is to facilitate academic growth for all students through inquiry learning. Students should be challenged to ask deeper questions throughout their own learning process. I believe that students do this best by being involved with hands on learning. In my experience that happens best in labs, simulations or role plays that address real world questions of interest to those students.
