

ANGEVINE MIDDLE SCHOOL FACULTY

Amber Lewanadowski

Education

Highly Qualified in Special Education and Elementary Education

Philosophical Statement

I am currently working one day a week for the Special Education Department as a diagnostician, testing for the department. However, my goal as an educator is ensure that each student has a solid foundation to develop and learn. In order to establish this foundation I will work cooperatively with teachers and staff, parents/guardians, and students. I strive to establish an encouraging, accessible learning environment. I continually strive for all of my students to become confident, valued, and ready for future schooling.
