

**Birch Elementary School
Spring 2006, 2007 and 2008 Student Climate Survey Results**

Results presented below indicate the percentage of favorable responses from students at this school to those from elementary school students districtwide. Questions marked with a "#" asked students about negative feelings or experiences, but have been reworded in this report (typically by adding "not" or "do not") to minimize confusion in interpretation. Please note that question one is omitted because it was a sample question. About 91.4% of students at this school responded.

Number of Students who Participated		
	School '07	School '08
<i>Total</i>	202	192

Because a large percentage of students do not walk to school or ride the school bus, many did not answer questions 26 and 42. Therefore, results for these two questions are based on only those students who responded, rather than all students.
