One individual from our boys team, Chandler Reid, finished in twelfth place qualifying him to compete at State. Congrats to all of our runners!

Robotics. Engineering. Building. Machining. Breaking and then fixing. Problem solving. Sales and Marketing. Developing Publicity. Leadership... Do any of these sound interesting to you? If they do, come out and find out what the FIRST Robotics Club is all about. If you are interested, please speak with either Mr. Huang or Travis Angevine. We are looking to find out how many students are interested in starting up a team for this year's FIRST Robotics competition.

Students: Do you want to make a difference in your community and country? In the Army National Guard you can. Stop by their table during lunch today to find out how.
