Parent Permission for Instructional Resource Team Consultation

The Instructional Resource Team (also called the IR Team), is a group of educational specialists and providers who assist teachers by suggesting strategies for building student academic and/or social and behavioral skills. This is a service that is available free of charge for maximizing student success in the classroom and school setting.

The IR Team Consultation can include a file review, classroom observation, recommendations for teacher and provider strategies, as well as assistance with data collection and follow up to determine the success of the strategies which are implemented. Parents are an important part of this process, and are kept informed by the teacher. Results and recommendations may also be shared with other school staff members who are responsible for working with the child.

We would like to offer this school-based assistance to your child,
_____, as a means of helping her or him. If you have any questions, please contact the teacher for clarification.

Please indicate below that this service is approved by you so that we can contact an IR Team member to schedule a classroom visit. Thank you very much.

Teacher

Date

I give permission for an IR Team member to conduct a consultation, to assist the teacher with academic and/or social and behavioral strategies.
