Feb. 19, 2008 – New BVSD Website Rollout

If you've been reading this column since it debuted in July, you already know that BVSD is redesigning its website. IT is currently moving content over from our old site to the new one which is set to launch late March 2008.

The ultimate goal of this project which began in spring 2007 is to create a more user-friendly website for BVSD. After determining which software we would use and what the general timeline would be for the redesign, our IT division started gathering suggestions from the various groups who use the site: parents, students, community members, teachers and other staff. A survey was administered, focus groups met, and informal dialogues were conducted with people throughout the BVSD community. All the feedback IT received has been taken into account and as many of the ideas as possible have been incorporated into the new design.

Usability testing will be done March 10 and 12. If you would like to take part in this important final stage of the website redesign, please email our webmaster at [webmaster@bvsd.org](mailto:webmaster@bvsd.org).
